

CALL FOR APPLICATIONS

AMERICAN MATHEMATICAL SOCIETY 2019-2020

American Mathematical Society (AMS) is a company with approximately 30,000 people and 570 institutions worldwide. AMS members support the mathematical sciences by providing access to research, conferences and events. It's a community passionate about mathematics. The company works in partnership with several organizations that support science and support research funding. It shows the importance of mathematics. They also help mathematicians and mathematical and scientific groups in different disciplines, geographic regions and career stages.

REU IN INDUSTRIAL MATHEMATICS AND STATISTICS

Working on mathematical and statistical problems in close collaboration with faculty and industrial sponsors

- ❖ Students in real-world projects sponsored by corporate partners
- ❖ 9 weeks stays in Massachusetts
- ❖ \$4700 stipend and housing for the program

CUNY COMBINATORICS REU

Cycle for undergraduate students

- ❖ 3-4 laureates/year
- ❖ for undergraduates
- ❖ for 7-8 weeks during the summer in New York City.
- ❖ \$6,000 for accommodation, food, and other expenses

RESEARCH MEMBERSHIPS

Rewarding the Research Memberships

- ❖ Limited number of laureates
- ❖ Researchers who will be in residence for at least 30 consecutive days
- ❖ Net salary: 3750 \$ /month

MAA PROJECT NEXT

Improving the teaching and learning of mathematics, engaging in research and scholarship, and participating in professional activities.

- ❖ 1 associate director (mathematical scientist)
- ❖ 4 years stays

EMERGING TOPICS WORKING GROUP

To work on a topic which seems ripe for significant progress, to help facilitate that progress.

- ❖ ± 10 mathematicians
- ❖ Cost of local accommodation and travel expenses of those without access to other travel money will be covered

Online applications starting on
October, 2019
